

Florida Association of Counties
FY 2014-2015 Property Tax Comparative Data Summary
Talking Points

- Who:** Florida Association of Counties.
- What:** Compilation/Summary of proposed tentative property tax rates and related information.
- Why:** FAC provides as a service to its membership to allow for the use of comparative data during the annual county budget development and decision making process.
- How:** Information contained within the Compilation/Summary was derived from standardized tax forms (Form DR-420) dictated for use by the Department of Revenue as a part of the statutorily mandated “Truth in Millage (TRIM) process. The data from these forms are tentative and final data will be certified by the Department of Revenue after the completion of the county budget process as dictated by the Florida Statutes.
- When and Where:** County Commissioners will begin the final stages of the budget development process in September by conducting a minimum of two public hearings to deliberate and ultimately adopt their respective property tax rates and budgets. The date, time and location of each county’s initial public hearing has been included on TRIM notices that were mailed (mandated by state law) to each local property owner during the month of August

Highlights

1. Taxable Values

- Growth in statewide taxable values for counties in aggregate (when compared to 2013 values) was **positive**. Summary data projects that values are up an estimated 6.7% or roughly about \$87 Billion.

2. Proposed Tentative Property Tax Levies

- Summary data reveals that total Fiscal Year 2014/2015 county revenues derived from property taxes are projected to be 6.33% more than revenue generated in Fiscal Year 2013/2014. This percentage represents approximately \$561.5 Million.
- Individually, 9 of Florida’s counties are projecting some amount of decrease in revenues when compared to the previous year. The other remaining 58 counties are anticipating some level of positive growth.

3. Proposed Tentative Property Tax Rates

The Rolled-Back Rate is a statutorily defined benchmark used to determine and evaluate property tax rates of local governments, school districts, and special districts. From a layman's perspective the Rolled-Back Rate is calculated in a manner that when applied to the taxable value of property within a jurisdiction, the rate would generate approximately the same level of revenue that was received in the preceding year. Therefore, the evaluation of a jurisdiction's tax rate is often derived from a comparison to the Rolled-Back Rate for the year in which the tax rate will be applied. If the adopted rate is below the Rolled-Back Rate, a jurisdiction can be considered to have reduced taxes. If the adopted rate is above the Rolled-Back Rate, a jurisdiction can be considered to have raised taxes.

- For FY 2014/2015, summary data illustrates that 7 of Florida's counties are proposing to reduce taxes when compared to FY 2013/2014.
- 6 counties have proposed rates that equal their Rolled-Back Rate for FY 2014/2015.
- 54 counties have proposed tentative rates that would be considered a tax increase; however these counties may still reduce their proposed tentative rates during the month of September as a part of actions taken during the statutorily proscribed budget public hearings.

4. Other Trends

- The summary data also displays two trends with regard to total county revenue:
 - Projected total county revenues derived from property taxes for FY 2013/2014 are below actual property tax revenues received in FY 2005/2006.
 - Projected total county revenues derived from property taxes for FY 2014/2015 thru FY 2019/2020 are well below the legislative proposed benchmark (growth in population + growth in per capita personal income), and the negative gap or margin is projected to increase in each respective out-year during that time period.

Florida Association of Counties

2014 (FY 2014-2015) Property Tax Comparative Data Summary

*(All data are considered projections and estimates based on tentative information. All final data will be certified by the Florida Department of Revenue at the completion of the County budgeting process as dictated by the Florida Statutes)

1. Taxable Values

- 2013 (FY 2013-2014) Taxable Value: \$1.299 Trillion
- 2014 (FY 2014-2015) Taxable Value: \$1.387 Trillion
- \$ Difference: \$87.4 Billion
- % Difference: 6.724%
- Average % Growth (Loss) per county: 3.24%
- Calendar Year Growth Projections¹
 - Est. 2015 (FY 2015-2016) 5.23%
 - Est. 2016 (FY 2016-2017) 4.52%
 - Est. 2017 (FY 2017-2018) 5.04%
 - Est. 2018 (FY 2018-2019) 5.21%
 - Est. 2019 (FY 2019-2020) 5.35%

2. New Construction

- 2014 Statewide New Construction \$ Value: 18.17 Billion
- 2014 Statewide New Construction % Value: 1.31%
- Average % New Construction (per county): 1.25%

3. Taxes Levied (Revenues)

- FY 2013-2014 Total Revenue: \$8.872 Billion
- FY 2014-2015 Est. Total Revenue: \$9.434 Billion
- Statewide \$ Difference: \$561.5 Million
- Statewide % Difference: 6.33%
- Average % Gain (Loss) per county: 5.56%
- # of Counties projecting revenue decrease: 9
- # of Counties projecting revenue increase: 58

4. Tax Rates

- Average FY 2013-2014 Aggregate Millage Rate: 7.8463
- Average FY 2014-2015 Aggregate Millage Rate: 7.9797
- Average % increase in Aggregate Millage Rate: 2.30%
- # of Counties projecting ***higher than*** Rolled-Back Rate: 54
- # of Counties projecting ***equal to*** Rolled-Back Rate: 6
- # of Counties projecting ***lower than*** Rolled-Back Rate: 7

Notes:

***Duval County** Data excludes values and figures for Beaches and Baldwin Districts

2013 & 2014 Taxable Value These figures represent gross taxable value, not adjusted for new construction and were taken from 2013 Form DR-420 (Line 7 and Line 4) for each County

New Construction These figures are shown as a percent of 2014 gross taxable value and were taken from 2014 Form DR-420 (Line 5) for each County

FY 13/14 Taxes Levied These figures were taken from Department of Revenue published data and were calculated after 2013/2014 VAB process. Data can be found at <http://dor.myflorida.com/dor/property/taxpayers/cmdata/table1.html>

FY 14/15 Taxes Levied These figures represent all ad valorem taxes levied including mstu's and were taken from 2014 Form DR-420 (line 25) for each County

FY 13/14 AMR Previous tax year calculated **aggregate millage rate** for each county (Previous year total taxes levied divided by previous year gross taxable value multiplied by 1000)

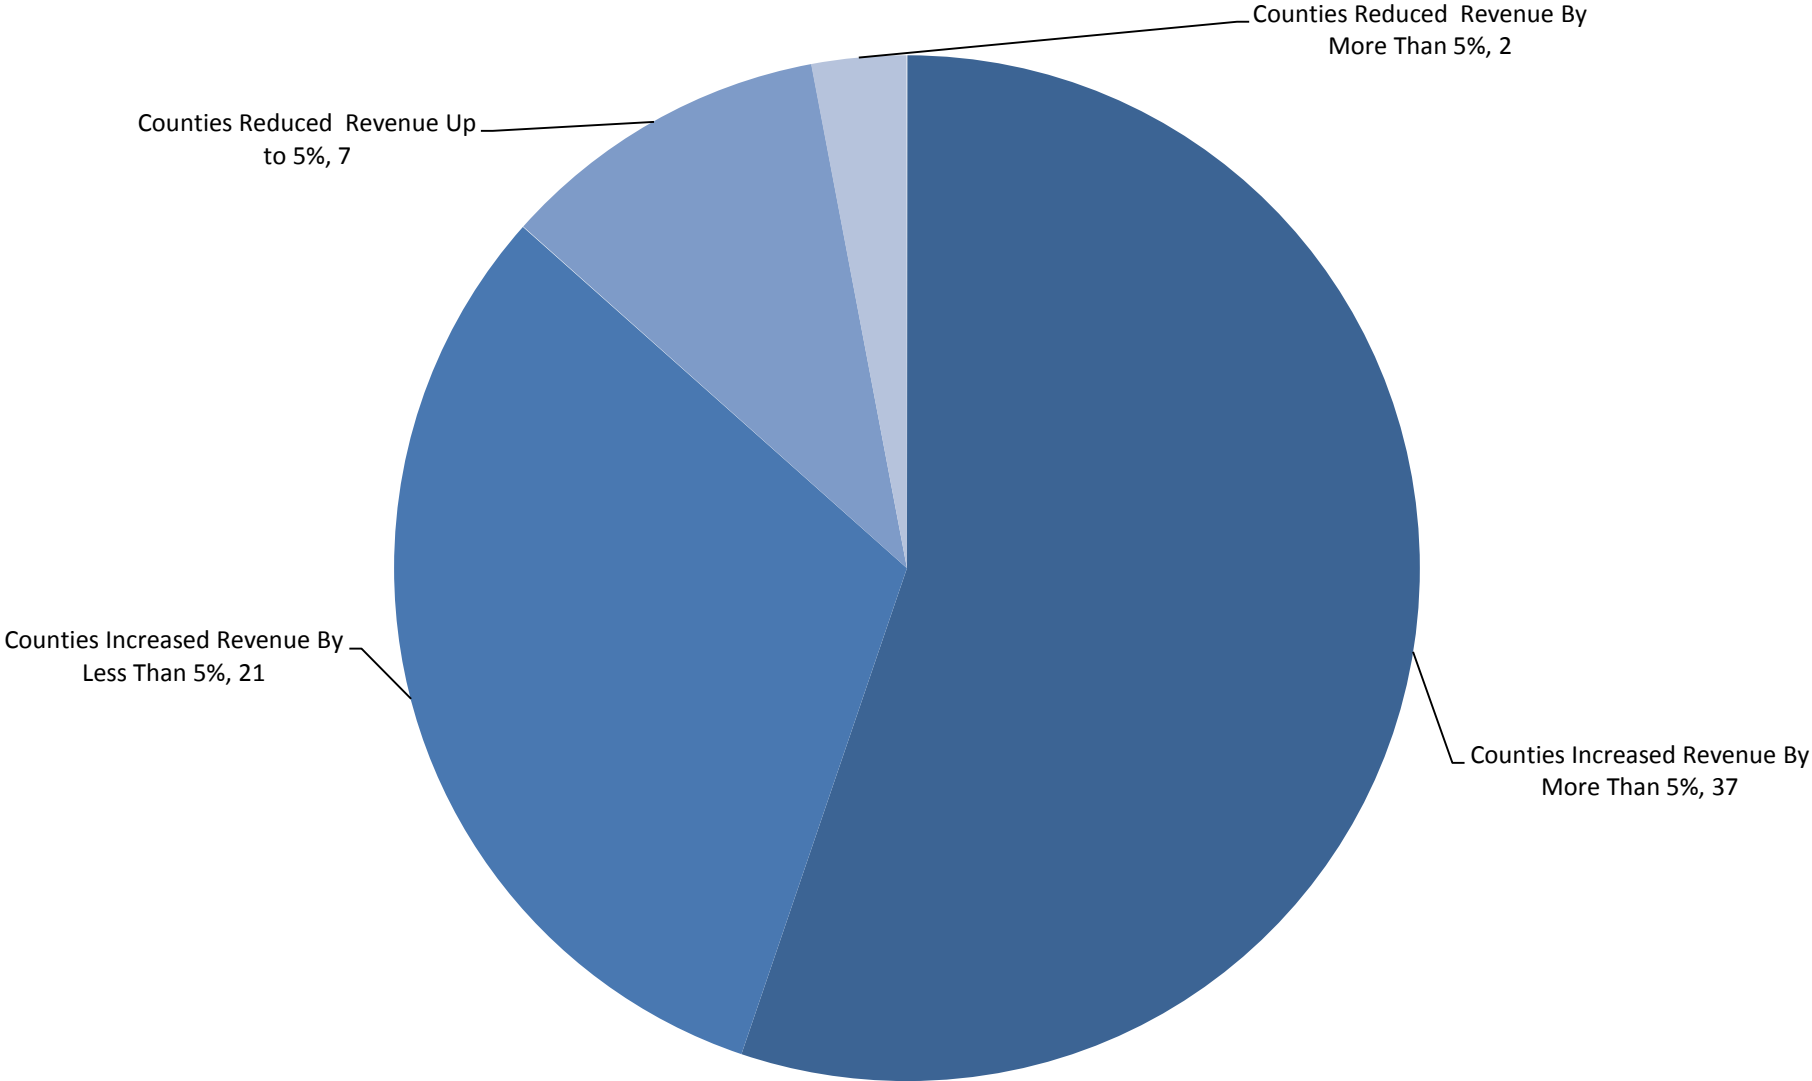

FY 14/15 ARBR Current year **aggregate rollback rate**. Data taken from 2014 Form DR-420 (Line 23) for each county

FY 14/15 AMR Current tax year calculated **aggregate millage rate** for each county (Current year total taxes levied divided by current year gross taxable value multiplied by 1000). Data taken from 2013 Form DR-420 (Line 26) for each county
